love

In just on look I feel in love. I knew he was the person of my life and I had to be with him. But after standing up from the floor he wasn't there. I looked for years but he disappeared. Finally after 15 years I had a boyfriend called Lucan. We were very happy and for vacations we went to the beach with some friends.

We were playing volleyball in the water when suddenly the ball fell

When I went to take the ball, a guy took it and gave it to me

I thought it was impossible but was the guy of secondary school. He cut his hair and he was different. I didn't want to see him because he was very strange.

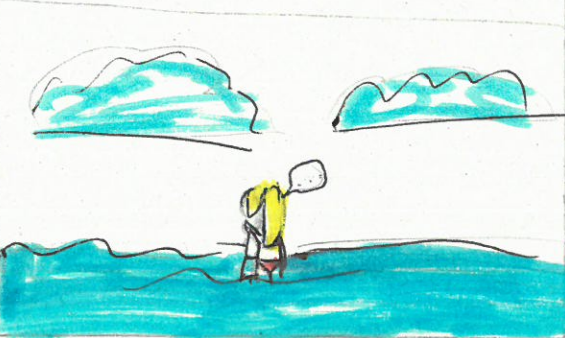

The look in his eyes was scary and his smile was terrible. He had a lot of marks on his face.

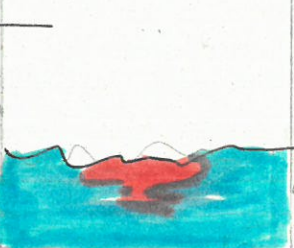

My boyfriend came and I went to play.

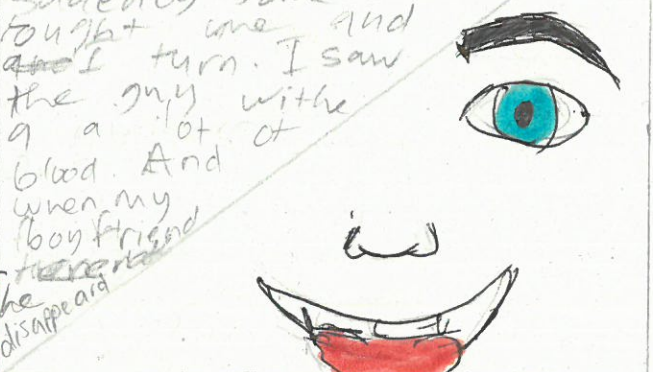

He didn't stop looking at Jenny and Mike that were talking in the water.

Suddenly they disappeared. There was only red water.

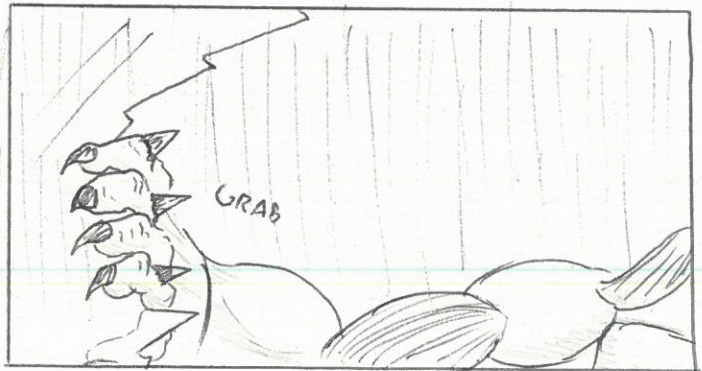

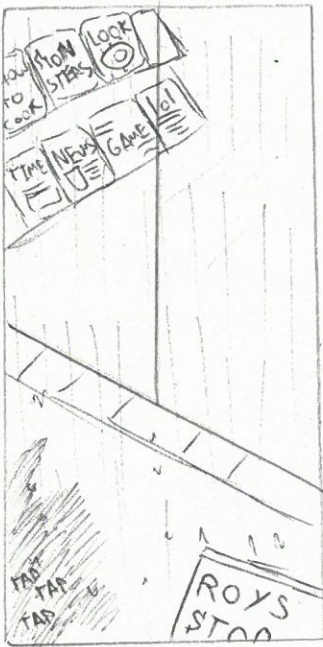

We and Lucas start shouting when suddenly someone touched me and I turned. I saw the guy with a lot of blood. And when my boyfriend disappeared he disappeared.
